Lab Assignment Using REcursion

1. WAP using recursion to print the first 10 natural numbers.
2. WAP using recursion to print the first 10 natural numbers in reverse order.
3. WAP using recursion to print the first 10 even numbers.
4. WAP using recursion to print the first 10 odd numbers.
5. WAP using recursion to find the sum of the first n natural numbers.
6. WAP using recursion to find the factorial of a given number.
7. WAP using recursion to find the square of a given number.
8. WAP using recursion to find the sum of digits of a given number.
9. WAP using recursion to count the number of digits in a given number.
10. WAP using recursion to reverse a given number.
11. WAP using recursion to check whether a number is a palindrome.
12. WAP using recursion to check whether a number is prime.
13. WAP using recursion to find the GCD (HCF) of two numbers.
14. WAP using recursion to find the LCM of two numbers.
15. WAP using recursion to print the multiplication table of a given number.
16. WAP using recursion to print the Fibonacci series up to n terms.
17. WAP using recursion to check whether a number is an Armstrong number.
18. WAP using recursion to find the sum of all elements in an array.
19. WAP using recursion to find the largest element in an array.
20. WAP using recursion to find the smallest element in an array.
